Practical port-related and logistics courses

About us

Portilog is an independent training provider.

We offer specialized courses focused on Shipping, Freight Forwarding, Customs and Logistics and other closely linked subjects.

Our customers are port-related and logistics companies in Antwerp, Ghent and Zeebrugge.

Like us, they strongly believe in lifelong learning and are convinced that the best employee training and development are essential for the company's success.

Our approach

All our courses are practically-oriented and interactive.

Our lecturers are experts in their field, they know what is current in their industries. Their theoretical presentations are combined with group discussions and case studies and are therefore highly practical.

Your benefits

The hands-on approach in our courses will foster your company's productivity. Course-members can immediately turn their new knowledge into practice.

More than 50 specialized port-related and logistics courses

SHIPPING | FREIGHT FORWARDING | LOGISTICS | CUSTOMS

Port knowledge (7 courses)

Directly related to the port, its players, regulations, customs and its operation in general. Some companies have included the port tour 'Havenintro' in their education programme for new employees.

International trade (3 courses)

In-depth courses about Incoterms and Bills of Lading focusing on possible ambiguities and misunderstandings that occur in everyday practice.

Customs (12 courses)

By combining these courses, the participant can gradually evolve from beginner to expert in the field of customs and stay informed about the most recent changes in legislation.

Taxation and legislation (7 courses)

Courses on taxation practices and legislation. Participants stay up to date with the latest changes in VAT legislation and are able to avoid fines, prevent claims and handle claims.

Transportation modes (3 courses)

Lecturers explain everything about cargo securing, air cargo and rail.

Chartering (1 course)

During 9 hands-on sessions experts teach all the basics of this lesser-known but nonetheless important and fascinating niche market.

Logistics: 4PL (1 course)

Participants get a clear understanding of the structure and the possible manifestations of Fourth Party Logistics.

Dangerous goods (5 courses)

Participants stay compliant with international, national and local rules issued to guarantee the safe transport of dangerous goods by land or sea.

Reefer loads (2 courses)

Courses that focus on the entire operation of the cold chain, highlighting key considerations for the transport of refrigerated cargo.

Masterclass Breakbulk (1 course)

Specialized training in a small group which bundles and disseminates the know-how present in the sector taking into account recent developments in the breakbulk market.

Operation of the Nautical chain (1 course)

Participants receive a helicopter view of the broader administrative and regulatory framework and the principles of nautical chain operation.

Please check www.portilog.be for more details about the content, location and participation fee of each individual course and possible grants or contact us.
